

Iowa Arborist Association

ELECTRICAL HAZARDS AWARENESS PROGRAM WORKSHOP

Electricity is a serious and widespread hazard to arborists. In fact, electricity causes about 15 percent of all fatalities in the tree care industry, making it the leading cause of worker fatalities.

The Electrical Hazards Awareness Program (EHAP) is a great way to keep your crews aware of electrical hazards and reduce injuries and losses, plus keep them trained and ready so you're prepared to qualify for storm clean-up at any moment.

This workshop is being funded in part by the Arborist Safety Training Institute.

When: March 7th, 2019
8:30am – 4:30pm

Where: Drake Library
930 Park St
Grinnell, Iowa 50112

Registration Cost:
